WEINSTOCK DENOUNCES VIGILANTES' ACTIONS

Commissioned By Governor to Make Investigation---Charges of Police Brutality--Recommends the Enactment of New Laws to Meet Industrialist Conditions.

SACRAMENTO, May 18.—Harris Weinstock, who was especially commissioned by Governor Hiram Johnson to investigate the industrialist affair at San Diego, returned a report containing 10,000 words in which he denounces the vigilantes as supine officials and advocates that the state take immediate control of the situation. He says the charges of police brutality is abundantly proven and quoted at length stories of how the industrialists were beaten and forced to sing the national anthem, which he says is a libel on "the home of the free land of the brave." He also denounces the industrialists principles, but declares mob violence much worse, and that industrialists principles makes a "nation of thieves, liars

and scoundrels." The report recommends that the state legislature and American congress legislate new laws to meet the new industrial condition which is likely to grow worse and worse until it culminates in a civil war.

SAN DIEGO, May 18.—Several arrests of the vigilantes are expected to follow the appearance of Attorneys Fred Moore and Marcus Robbins, who appeared before Superior Judges Guy and Sloan today, asking for warrants charging contempt of court against the 16 citizens who surrounded and warned them that they leave the town. Moore had been arrested on a complaint that charged him with receiving fire arms at his office.

SOCIALISTS ARE TRYING TO FORCE ADJOURNMENT

INDIANAPOLIS, May 18.—Several of the Socialists are trying to force an adjournment of the convention not later than Sunday night, although it may take place tonight. The nomination of Debs or Seidel for the presidential candidate is being trashed out today. Both are popular with all the delegates.

INDIANAPOLIS, May 18.—Eugene V. Debs has just telegraphed the convention that he will accept the nomination of the socialist ticket for president of the United States.

INDIANAPOLIS, May 18.—The socialist convention delegates wrangled over the Asiatic immigration laws today. A resolution was adopted denouncing Judge Hanford for "interfering with citizenship property of a naturalized citizen," and directed Congressman Berger to present the matter before Congress.

SEMI-ANNUAL MUSICIANS' BALL GREAT SUCCESS

The semi-annual dance given by the Musicians' Union at Miners Exchange hall, last night, was a tremendous success in every particular. A large crowd attended and all enjoyed themselves until the wee small hours. The hall was well decorated for the occasion and showed the ease and pains that had been taken for preparation for one of the best dances that has been held in the season. The music was the best to be had in the state and from the records received it goes without saying that all who attended the ball enjoyed themselves most heartily.

RICHESON IS TOLD OF FATE

BOSTON, May 18.—Clarence V. T. Richeson, the slayer of Avis Linnell, slept quietly in his cell in the death house at Charlestown state prison last night, ignorant that the governor had refused commutation of his sentence.

The announcement of the decision of the alienists that he was sane and that the governor would not urge clemency, was left to be made to the prisoner. It was expected that the task would fall on either the condemned man's counsel, Wm. A. Moore, the prison chaplain, Rev. Herbert W. Stebbins, or his spiritual adviser, Rev. Herbert S. Johnson.

The execution of Richeson probably will take place early next week. There is a sentiment against a Monday morning execution as occurring so close after Sunday, which has been recognized by the warden of the prison. An exception may be made owing to the highly nervous state of the condemned, and it is not improbable that Richeson may go to the chair Monday morning.

The time within the week of May 19 is entirely at the warden's discretion and only the legal witnesses will know before hand at what time the sentence of the law will be carried out.

BOSTON, May 18.—Richeson collapsed at noon today when apprised of the fact that Governor Foss had refused to interfere in the case and that he would be electrocuted some time during the week of May 19.

WOULD DROP THE OLD CIVIL SERVICE EMPLOYEES FROM ROLL

Measure Provides That All Civil Service Employees Over 65 Years of Age Shall Lose Their Jobs.

WASHINGTON, May 18.—At what age does a government employee become useless as a public servant? Is the burning issue in Washington.

Pending in the House, with strong prospect of passage, is a measure providing that, on July 1, 1914, all civil service employees who have reached the age of 65 years shall lose their jobs.

Controversy that ranges from exciting to acrimonious fills the air. A gray-whiskered old veteran on Uncle Sam's pay-roll took a pencil in hand today and contributed an ingenious element to the discussion.

"You can see from this list," he said, "that the constituents of 23 members of the House do not share the opinion of those who contend that a man's usefulness in the public service ends at 65 years."

He produced a roll that contained the names of Representative Sherwood of Ohio, 77 years of age and the oldest member of the House; "Uncle Joe" Cannon of Illinois, 75 years; Sullivan, New Hampshire, the giant of the House, 75; Lamb

A small ring of contractors controlled the bidding, and the state paid absurd prices.

JOB HUNTERS ENTER PEKIN BY THE THOUSANDS

PEKIN, May 8.—It is estimated by high government officials that there are today 10,000 office-seekers in Pekin, with as many more on their way to the capital from all parts of China. The situation is embarrassing, as most of the job-hunters are of the old, crooked type, which the new government can not trust, or rabid young republicans, who are too headstrong and have no experience in official positions. At the same time many of the applicants possess influence in the localities where they live, and the government is afraid to antagonize them.

Investigation begins he will divulge all the secrets of his office, which he says might reflect upon the character of several officials now holding high office in the government service in Washington.

J. C. Donahut arrived from Goldfield today and may make this city his permanent headquarters.
